

Interdisciplinary Graduate Program in
Molecular & Cellular Biology

Spring 2014 Workshop & Seminar Series

"The Two Faces of Human WASp: Cytoskeletal remodeler and Chromatin remodeler"

Yatin Vyas, MD, MBBS

Mary Joy and Jerre Stead Professor of Pediatric Hematology/Oncology
Professor of Pediatrics - Hematology/Oncology
(MCB faculty candidate)

"Role of Disabled Protein 2 (Dab2) in Vascular endothelial growth factor receptor 2 (VEGFR2) trafficking, signaling and vascular morphogenesis"

Shivangi Inamdar

Molecular & Cellular Biology Graduate Student
Yeaman lab

**Please note
special location!**

**Thursday, April 10
4:00-5:00 p.m., 283 EMRB**
